Graphik

Первоначально Graphik разрабатывался для фирменного стиля Schwartzco Inc., затем последовала доработка для журнала Condé Nast Portfolio, и после он был расширен для журналов Wallpaper* и T (в составе The New York Times). Низкий контраст и небольшая разница в высоте между прописными и строчными знаками делают шрифт многофункциональным инструментом. Он подходит для акциденции, мелких кеглей и узких утилитарных задач, например, для навигации или картографии. Кстати, Graphik используется в оформлении type.today. В шрифте девять начертаний разной насыщенности и широкая касса: лигатуры, минускульные, прописные и табличные цифры, индексы. Кириллицу Graphik спроектировал в 2015 году Илья Рудерман (CSTM Fonts).

ENG: Graphik was inspired by the appealing plainness seen in many of the less common 20th century European sans serifs and in the hand-lettering of classic Swiss Modern posters. The lighter weights were influenced by the less popular sans serifs that many European foundries released to compete with Futura, Helvetica and Univers, the juggernauts of 20th century sans serifs. These influences included Neuzeit Grotesk, Folio, Recta, and Maxima. The heavy end of the family is inspired in part by Paul Renner's Plak, a relatively obscure display typeface cut only in large sizes.

First drawn as the house style for Schwartzco Inc., it was further developed for Condé Nast Portfolio and later for Wallpaper* and T, the New York Times Style Magazine. The low contrast and large x-height give the typeface great versatility. It is suitable for display purposes as well as for text sizes, captions and for such specific tasks as navigation systems and map-making. By the way, the web-site of type.today is set in Graphik. The typeface is available in nine weights, with italics, each with five sets of figures.

The Cyrillic extension was drawn by Ilya Ruderman (CSTM Fonts) in 2015.

Great Britain, also known as Britain, is an island in the North Atlantic off the north-west coast of continental Europe. With an area of 209,331 km² (80,823 sq mi), it is the largest island in Europe and the ninth-largest in the world. In 2011 the island had a population of about 61 million people, making it the third-most populous island in the world, after Java in Indonesia and Honshu in Japan. It accounts for the majority of the British Isles archipelago, along with over 1,000 smaller surrounding islands, including the island of Ireland to its west. The island is part of the United Kingdom of Great Britain and Northern Ireland, constituting most of its territory. Most of Great Britain and Northern Ireland are on the island, with their respective capital cities, London, Edinburgh, and Cardiff. Politically, the term Great Britain refers to the island of Great Britain along with the smaller islands of the United Kingdom of Great Britain and Northern Ireland.

Parece que los gitanos y gitanas solamente nacieron en el mundo para ser ladrones: nacen de padres ladrones, críanse con ladrones, estudian para ladrones y, finalmente, salen con ser ladrones corrientes y molientes a todo ruedo; y la gana del hurtar y el hurtar son en ellos como acidentes inseparables, que no se quitan sino con la muerte. Una, pues, desta nación, gitana vieja, que podía ser jubilada en la ciencia de Caco, crió una muchacha en nombre de nieta suya, a quien puso nombre Preciosa, y a quien enseñó todas sus gitanerías y modos de embelecos y trazas de hurtar. Salió la tal Preciosa la más única bailadora que se hallaba en todo el gitanismo, y la más hermosa y discreta que pudiera hallarse, no entre los gitanos, sino entre cuantas hermosas y discretas pudiera pregonar la fama.

**Commercial Type**

Based in New York and London, Commercial Type is a joint venture between Paul Barnes and Christian Schwartz, who have collaborated since 2004 on various typeface projects, most notably the award winning Guardian Egyptian. The company publishes retail fonts developed by Barnes and Schwartz, their staff, and outside collaborators, and also represents the two and their team when they work together on type design projects. Following the redesign of The Guardian, the team headed by Mark Porter, including Barnes and Schwartz, was awarded the coveted Black Pencil by the D&AD. The team was also nominated for the Design Museum's "Designer of the Year" prize. In September 2006, Barnes and Schwartz were named two of the 40 most influential designers under 40 in Wallpaper*

Christian Schwartz, a type designer and one of the founders of the type foundry Commercial Type, lives and works in New York. A graduate of Carnegie Mellon University in Pittsburgh, Pa., he worked for a time at MetaDesign in Berlin. After returning to the United States, he worked at type studio Font Bureau, going independent in 2001. In 2007, he and London designer Paul Barnes founded Commercial Type. The studio's projects include typeface for The Guardian, Esquire, T (The New York Times Style Magazine), the Empire State Building and Sprint. Also in 2007 Schwartz was awarded the prestigious Prix Charles Peignot, given to designers under 35 years of age for "outstanding contributions to type design." He has been on the short list of the Museum of Design, in London, as Designer of the Year and was rated among the top 40 most influential designers under 40 years of age by Wallpaper* and on Time's list of top 100 designers.
